Summer 2011**

Sing Your Hearts Out

Members of the soprano section watch intently while NLC conductor Murray Hipkin takes them through their paces

Back in March Stuart and Oliver recorded a rehearsal session, and some member interviews, for the North London Chorus. Excerpts from these have now been uploaded to the NLC's new web site.

Three cameras were actually employed to cover the rehearsal – a fixed camera aimed at conductor Murray Hipkin, a tripod-mounted camera to cover the choir and a hand-held camera for general roaming. Stuart and Oliver took turns with the tripod camera and hand held camera and some excellent footage was obtained which captured the essence of an NLC rehearsal.

Recently Completed Work

Since our last newsletter *KLA* has covered a Jump Training presentation at the Chartered Architects Hall and Southbank International School's annual Suzuki concert at Central Hall, Westminster.

We also recorded Jack Petchey's "Speakout" Challenge! 2011 Grand Final at the Queen Elizabeth Hall, Southbank Centre. For this coverage one of our three cameras provided a live feed which was projected onto a screen behind the participants during the show.

Meanwhile Stuart found himself editing a great deal of Formula 1 material for a leading law firm as part of a current court case. As Stuart is a great Formula 1 fan this was indeed a labour of love.

Training

Our sister operation – Swanrose Video Training and Consultancy - has recently provided further training for existing clients Clifford Chance LLP and Usborne Publishing and gained a new client in Qualogistics Ltd for whom we will be providing further consultancy and facilities services.

Meanwhile we continue to provide regular consultancy and training to long time client NorthEastSouthWest.

Future Productions/Work

We continue to provide regular facilities services for a range of our clients including documentary maker Mama Safari and the Queen's Royal Irish Hussars. Meanwhile we also continue to undertake the usual range of facilities work for a range of clients old and new.

New Purchases

KLA has recently further upgraded its *Adobe Production Premium Suite* to the latest version – CS5.5. This means that we can continue to offer editing in virtually all of the current popular formats and training on the latest software.

Hot News

We are hoping to work with our regular client FlamencoVision on a series of interviews with renowned flamenco guitarist Juan Martin in the autumn.

More Hot News

Away from business Stuart is busy practising for a musical spot in a garden concert in early September. Stuart regularly performs with a trio, singing and playing the guitar (and occasionally saxophone), but on this occasion will be performing solo.
